

West Visayas State University
INTERNATIONAL RESEARCH CONFERENCE
February 27-29, 2008

Cluster on Information Technology and Engineering

Schedule of Presentation

TIME	February 26, 2008	February 27, 2008	February 28, 2008	February 29, 2008
8:30-8:50			Paper11 (9:50-10:10): Scalable Middleware for Wireless Sensor Networks based on Symmetric Logical Grid Routing Louie F. Cervantes	
8:50-9:10			Paper12 (10:10-10:30): Three-Dimensional Non-Conforming Finite Element Analysis For Incompressible Material Problem: Pre-Topology Optimization Henry Panganiban	
9:10-9:30			Paper13 (10:30-10:50): Diagnosis Support Using Mobile Data Mining For The Ubiquitous Healthcare Romeo Mark A. Mateo	
9:30-9:50			Paper14 (10:50-11:10): Nonlinear Interior Point Method (NIPM) based OPF Including Discrete Control Variables Rodel D. Dosano	

9:50-10:10			Paper 15: Multi-Agent e-Learning System for Programming Languages S. Thaddeus	
10:10-10:30			Paper 16: The Comparative Analysis Between Neural Network Over Rule-Based In Misuse Detection Of Hybrid Intrusion Detection System (HIDS) Edwin R. Ramos	
10:30-10:50			Paper 17: Test Checker and Item Analyzer with Statistics Cesar B. Bermudo	
10:50-11:10			Paper 18: Quality, Awareness And Acceptance Of Electronic Banking Service Among Malaysian Polytechnic Academic Staff Suzyanty Mohd Shokory	
11:10-11:30			Paper 19: Enhancement Of Noisy Speech Using Null Beamforming Rodrigo C. Muñoz, Jr.	
1:30-1:50		Paper1: Internet-Based Information System And Information Delivery Via Subscription For The University Of Rizal System – School Of Graduate Studies Eloisa Aquino Anorico		

1:50-2:10		Paper2: Development of an Offline Computer-Assisted Instructional Material in Plant Taxonomy Rina C. Antazo		
2:10-2:30		Paper3: Games and Simulations: Effective Tools for Teaching Mathematics Arnel M. Daymiel		
2:30-2:50		Paper4: Development of A Process Asset Library for Software Engineering Projects Jay Alegata	Paper 20: Learning Objects: International Interoperability Rory McGreal	
2:50-3:10		Paper5: An Online School Management System Mihyar Hesson	Paper 21: On the Road Pricing: Problem for Multi-class Networks Rhoda Agdeppa-Namoco	
3:10-3:30		Paper6: Easy-to-Use Online Quizzes for Technophobic Teachers Marmon A. Pagunsan	Paper 22: Training Needs Assessment Of Computer Teachers In The Secondary Schools: Basis For Curriculum Enhancement" Janice Antoniette V. Förster	
3:30-3:50		Paper7 (8:30-8:50): Evaluating Teaching and Learning Through Easy-to-Use Online Surveys Marmon A. Pagunsan		
3:50-4:10		Paper 8 (8:50-9:10): Language Learning Beliefs Of Postsecondary Students Towards Classroom Use Of Computer-Mediated Communication Marmon A. Pagunsan		

4:10-4:30		Paper 9 (9:10-9:30): Automated Car Seat Bottom Cushion Frame Inspection System Using Machine Vision Nelson S. Andress		
4:30-4:50		Paper 10 (9:30-9:50): Using intelligent Data Mining Agent for Insurance Telematics Systems Bobby D. Gerardo		
5:00		Wrap up		
5:30-6:30			Poster Viewing	
6:30 -		Fellowship and Cultural night	Free time
